

FISCAL NOTE

HB 3411 - SB 3300

February 23, 2004

SUMMARY OF BILL:

- Provides that the employees of installers, manufacturers, and retailers of manufactured homes are exempt from the licensure and bonding requirements of present law.
- Deletes "ground moisture barriers" from the definition of "set-up."
- Provides that HVAC system installers are exempt from the licensure and bonding requirements for manufactured home installers if the HVAC installer did not perform any other work on the manufactured home that would otherwise require a license.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact - Minimal since such employees have not been required to pay any licensing fees and this bill will amend the statute to reflect current practice by the Department of Commerce and Insurance

Although the Department of Commerce and Insurance believes that it has the power to require employees of installers, manufactures and retailers to pay a licensing fee and be bonded, the Department does not currently require such fees and bonding. To the extent that they did require such fees and bonding this bill would result in foregone state revenues.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a smaller, more compact script than the last name "White".

James W. White, Executive Director
